**Subject: Request for Permission to Conduct Research on Handmade Paper from Wildlife Dung in
Chitwan National Park and its Buffer Zone**

Dear Sir/Madam,

I am writing to request permission for Sujit Shrestha, a B.Sc. Forestry student from Siddhant Campus, Gaindakot-6 affiliated to Agriculture and Forestry University (AFU), to conduct research titled, "Exploring Stakeholder Attitudes and Evaluating the Potential of Handmade Paper from Wildlife Dung and Agricultural Waste in Chitwan National Park and its Buffer Zone." This research is part of their Bachelor's coursework and will be supervised jointly by me and Sewak Bhatta.

The research, designed with strict adherence to environmental and ethical standards, aims to promote sustainable waste use, mitigate human-wildlife conflict, and support local economic development. We assure you that all activities will be conducted responsibly to avoid any disruption to the park's ecosystem.

I would also like to inform you that the necessary testing equipment is available at our college, and all tests will be conducted on campus. The methodology is outlined in the attached proposal for your review.

We kindly seek your permission to proceed. The full proposal is enclosed for your review.

Thank you for considering this request.

Yours sincerely

Rubi
